

Supply Chain Logix Names Jay-Lynn Wallace Vice President of Operations

Irving, Texas (PRWEB) June 03, 2014 Supply Chain Logix, a global supply chain provider, announces the appointment of Jay-Lynn Wallace as Vice President of Operations. Based at the company's headquarters in Irving, Texas, Wallace will be responsible for overseeing all supply chain services for its global logistics operations.

As a founding member of our team, Wallace brings extensive experience in supply chain management to the company. In her new role as Vice President, Wallace will report to Brenda Stanfield, President/CEO of Supply Chain Logix.

"Jay-Lynn's exceptional skills in overseeing our operations have taken Supply Chain Logix to a new level. Her ability to design solutions for customers has helped us develop world class customer service. She has shown outstanding dedication and commitment to our customers and our team," said Stanfield. "As our operations continue to grow globally, Jay-Lynn will play a crucial role in expanding our presence as a leader in supply chain services worldwide."

Wallace previously worked at Ryder Integrated Logistics in Fort Worth, Texas where she handled government and military shipments in the Freight Management Group. She also worked for Wilderdest Logistics Solutions where she served as the Strategic Accounts Manager until 2011. Wallace remains active in Destination Imagination (formerly "Odyssey of the Mind") which is an organization promoting teamwork, creativity and problem solving for elementary through college level students.

About Supply Chain Logix

Supply Chain Logix is a privately held organization which designs, implements and supports a variety of supply chain services including order management, carrier management, freight audit and pay, business process outsourcing and 4th party (4PL) logistics. Supply Chain Logix also sells and supports a suite of cloud-based supply chain software related to order and transportation management throughout the entire supply chain. Supply Chain Logix has been serving global customers since 2011 from its national headquarters in Irving, Texas.
